

PRODUCT DATA SHEET | BIKE CARE ECO
BEARING GREASE

FIRST FILL BEARING GREASE is a biodegradable grease with excellent lubricating properties, formulated entirely on the basis of sustainable components, for parts that are exposed to extreme pressure and force, such as (ball) bearings and shafts. Bearing Grease has excellent adhesion, a very low coefficient of friction, moisture-repellent effect and protects against wear and corrosion.

APPLICATION

Ball bearings, slide bearings, wheel bearings. Lubrication of sliding and turning structures. Not to be used for wheel hubs, universal joints and hot water pumps. Suitable for all lubrication points that require NLGI2 grease.

PROPERTIES

- Biodegradable
- Free from GHS symbols
- Excellent adhesion
- Protects against corrosion and wear
- Moisturizing effect

INSTRUCTIONS

Make sure that the surface is degreased and dry. After cleaning, apply the grease on the material. Do not mix with other products.

PHYSICAL PROPERTIES

Color	:	Off-White
Base	:	Vegetable Oil, silica
NLGI	:	2
Operating Temp.	:	-20°C - +80°C

PACKAGING OPTIONS

- 200 ml Airopack® with brush
 - 210 LTR Drums
- Other packaging on request.
