

FIRST FILL INJECTOR CLEANER DIESEL is a cleaning diesel additive that lubricates and cleans the entire fuel system, from the tank to the injectors. Fuel consumption is also optimized and this product ensures cleaner exhaust gases.

This product also cleans the combustion chambers and piston ring grooves, reduces blowby and engine pollution, minimizes the seizing of adjustment mechanisms of variable turbos and improves combustion and engine performance.

PROPERTIES

- Cleans + lubricates the entire fuel system
- Increases performance + fuel efficiency
- Neutralizes acids + other unwanted conditions

APPLICATION

Compatible with all diesel fuels. The product complies with the EN590 standard. It is recommended to use this product during every maintenance service or at least once a year, so that the engine continues to perform optimally.

Add a dosage of 250 ml to the fuel. One dosage is suitable for a tank capacity of 70 liters.

PHYSICAL PROPERTIES

Density at 20°C, kg/l	:	0,97
Colour	:	Brown
Components	:	Solvents & additives

PACKAGING OPTIONS

- 12 X 250 ML
- 5 / 10 / 25 LTR CANS
- 60 / 200 LTR DRUMS
- 1000 LTR IBC
