

FIRST FILL RADIATOR LEAK STOP is a scientific combination of sealing components, corrosion inhibitors and anti-scale deposits. This product stops leaks from the radiator, hoses and heating, but also hairline cracks in the water seal and cylinder head.

PROPERTIES

- Prevents corrosion and the forming of scale deposits
- Prevents leaks and serious damage to the system
- Seals existing leaks and hairline cracks

APPLICATION

The product can be used to seal existing leaks. When it is added to the cooling system during a cleaning cycle, it acts as a direct protection against leaks, which may develop later and prevents serious damage.

PHYSICAL PROPERTIES

Density at 20°C, kg/l	:	1,03
Colour	:	Blue
Components	:	Water Fibers Additives

PACKAGING OPTIONS

- 12 X 250 ML
- 5 / 10 / 25 LTR CANS
- 1000 LTR IBC
